Memo for Filing:

Re: Cotter Corporation  
Thornburg Memorial Mine  
Grand County, Utah  
ACT/019/006

On July 27th 1977, Ron Daniels and myself met Mr. Ron Purviance at the Thornburg Mine.

The plan submitted for this operation is very complete and no suggestions were made other than the inclusion of a written commitment by the operator to clean up the site before reclamation.

The adits and dumps that preexist Cotter's involvement are remote from the present activities and will not be reclaimed. The new incline will not disturb any virgin ground and will utilize the present facilities.
